

Rover Technology Fusions Signs Strategic International Agreement with CHT Supply

(Tampa, FL – February 1, 2010) – Rover Technology Fusions, a Tampa based mobile-data capture, workflow and document management solutions provider, announced today they have signed an international distribution agreement with CHT Supply. CHT Supply serves prestigious customers in Government and businesses within Spain and South America. This agreement encompasses CHT Supply offering all of Rover’s products, professional consulting and delivery services.

President of CHT, Arnaud Deslandes, commented on the strategic partnership with Rover. “As a total solutions provider in the mobile-data space, Rover and its products are an excellent fit for our customers who demand top quality and innovative technology solutions. As important as selecting the right products to represent internationally, it was paramount we found a team of professionals who understood the challenges to bring US based products into international markets. It takes the right leadership team and staff, to insure the highest level of customer service; we believe we have found that recipe with Rover. With their understanding of market trends in wireless data, and user interfaces for various company profiles, we are confident we will quickly achieve mutual success through this agreement.”

“As Rover workflow products are now available to support multiple languages, we can’t be more excited about this new partnership and the opportunities it brings to our Company” stated Bryan Kearney, President and CEO of Rover Technology Fusions.

Global customers, regardless of industry, have been affected by the challenging economic downturn. Rover INK offers a great opportunity to drive down operational cost, while enhancing customer service, safety and compliance initiatives. Customers achieve increased profits by way of significantly reducing data entry costs, and costs associated with document scanning, copying and distribution. Rover INK delivers a robust portfolio of data capture and workflow solutions targeted to help companies meet their operational objectives.

About Rover Technology Fusions
