

Rover Technology Fusions Attracts Healthcare Industry Veteran as Chief Operating Officer and Chief Financial Officer

(Tampa, FL – February 15, 2010) – Rover Technology Fusions, a Tampa based mobile-data capture, workflow and document management solutions provider, announced today that Alan Satterwhite has joined the company as Chief Operating Officer and CFO. Mr. Satterwhite is an industry veteran and comes from a successful career in corporate America, leading rapid growth companies in healthcare and services.

Alan brings Rover significant experience in rapid growth environments from his leadership positions as Senior Vice President and CFO for Cardinal Health (NYSE- CAH), a multi billion-dollar leader in healthcare supply and services; as COO/CFO and Co-Founder of Karrington Health, a leading long-term care provider (now part of Sunrise Senior Living- NYSE- SRZ) and for a decade as a Senior Manager at PriceWaterhouse Coopers serving Bank One, Wendy's International, US Health and other enterprises and industries. His experience in the capital markets, strategy, profit improvement, talent development and controllership brings a strong set of skills to the Company.

Bryan Kearney, CEO of Rover added: “Alan brings leadership, energy and experience to Rover at a key time in the growth of our Company. His unique perspectives as a leading CFO strengthens our focus on the solutions we offer to our clients: the strong economic benefits, cost savings and process improvements. We are delighted he has joined our organization.”

Customers implement the Rover INK solution when they need a quick and easy implementation of data capture or forms processing to enhance their business. Rover INK is a series of products architected for use with digital pens and paper or Tablet PCs. The digital pen device is less obtrusive, requires little training, and is USB docked or paired with a smart phone or Blackberry using Bluetooth communications. Forms processing, signature capture, and best practice business rules are imbedded into the digital paper form. The results are increased profits by way of eliminating data entry costs, and costs associated with document scanning, copying, retention and distribution. Rover INK quickly delivers information control, enhanced safety, and compliance while enhancing customer service.

About Rover Technology Fusions

Tampa, Florida based Rover Technology Fusions (Rover) is a leading full-service technology solutions provider offering a robust portfolio of workflow and mobile-data products to a broad range of customers. Focused on improving operational efficiency through the use of digital writing technology, Rover INK delivers ‘speed on the edge’ of the enterprise resulting in the elimination of costs associated with forms processing.
